# Preeti Mahapatra

Founder & Mentor

As the founder and mentor of Mahapatra Universal Limited, Mrs. Mahapatra has orchestrated strategic investments across diverse sectors including Engineering, Information Technology, Sports & Media, Hospitality, Solar Power and Renewable Energy, Gems & Jewellery, and Mining. Under her stewardship, the group consolidated and acquired six companies into a single division, surpassing competitors, securing a greater market share, and boosting earnings. Notably, she led the charge in championing two additional acquisitions while implementing operational restructuring to drive maximum cost efficiency and building profits for the organization.

## Our Brands

## About Us

Mahapatra Universal Limited, headquartered in Mumbai, is a global enterprise operating in over seven countries across three continents. With diversified interests in Manufacturing, Engineering, Infrastructure, IT, Consumer and Retail, Financial Services, Healthcare, Sports, Media, and Entertainment, Mining and Logistics, its mission is “To improve the quality of life of the communities we serve globally, through long-term stakeholder value creation based on Leadership with Trust.” The company has taken pioneering initiatives across its sectors, contributing significantly to the country’s growth and the communities it serves.

## Our Values

The following values are the driving force for all our businesses as they work towards delivering sustainable profitable growth in their respective sectors.

### INTEGRITY

Our fundamental virtue is characterized by adhering to ethical and moral principles consistently.

### EXCELLENCE

For us excellence is not just an outcome but a journey marked by passion, effort and resilience.

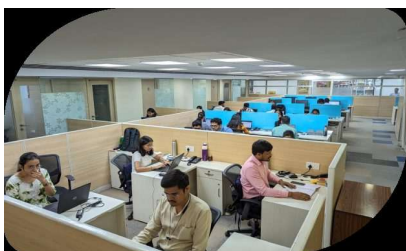

### UNITY

Building strength through togetherness.

## Our Culture

We stand by all our ethics for all our customers and stakeholders, including our employees, and society at large. We are guided by the principle of “Achieving right results by right means” — transcending legal guidelines to engage deeply with all stakeholders. Emphasizing a journey rather than a destination, the company continually enhances its practices across continents, balancing stakeholder interests. Core values like teamwork, transparency, accountability, continuous learning, social responsibility, respect for individuals, and humility drive the organization, fostering an entrepreneurial culture and enhancing shareholder value.

## Social Responsibility

As a responsible corporate, the company, besides being actively engaged in various sectors, is fully committed to the larger goal of enhancing the standard of living, particularly of the marginalized. The company believes that only through this will the larger objective of fully developing and tapping the nation's true potential be achieved. Accordingly, the corporate policies of the company are driven by a set of seven carefully drafted core values. 'Respect for Individual' is one such core value of the company. In line with this, the company as a whole ensures that it adheres to all statutory regulations pertaining to Occupational Health, Safety and Environment along with gender and age specific issues of employment — specifically in the context of medical, hygiene, rural development, education, food distribution and other social activities.

## Our Leadership

### **Preeti Mahapatra**

#### **Founder & Mentor**

Mrs. Preeti Mahapatra holds a master's degree in International Business (Finance) and Export Management. She has spearheaded the successful launch of International Brands in the European, Asian, and Middle Eastern markets, showcasing her prowess in the global business arena from a remarkably young age. Besides extensive experience collaborating with global luxury brands, she possesses an acute understanding of the intricacies across various industries. Beyond her professional endeavors, Mrs. Mahapatra is actively involved in philanthropy through her non-profit organization. By allocating a portion of her profits, she spearheads initiatives aimed at addressing key social issues such as education, shelter, disaster management, and more, spanning across various states of India.

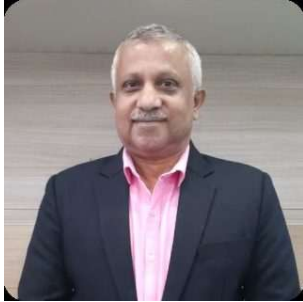

### **Hari Mahapatra**

#### **Managing Director**

Hari Mahapatra is a seasoned professional with over 25+ years of experience in spearheading investments across various sectors, ranging from manufacturing to financial services. With a strong emphasis on organizational development and nurturing talent, he brings a wealth of expertise. Holding an MBA degree, Mahapatra boasts a robust track record in navigating international and multicultural business landscapes. His achievements underscore his proficiency in achieving revenue, profit, and business expansion objectives across diverse operational scenarios, including start-ups, turnaround initiatives, and rapid-change environments. His extensive experience with complex engineered systems underscores his adeptness in understanding critical business drivers across multiple industries. Known for his ability to foster strong relationships with industry leaders, tackle pivotal challenges head-on, and uphold unwavering commitment to customer satisfaction, Mahapatra stands as a testament to excellence in leadership and strategic acumen.

## Management Team

### **Prabhudas Nambiar**

#### **Director – Account / Finance**

A Master's degree in Accounting & Finance and with global experience over 25 years in finance, Mr. Nambiar has served the Mahapatra Group from its incorporation. Under the directives of Mr. Nambiar, the group has restructured its financial strategies.

### **Vishal Dhure**

#### **CEO – Sceniuz**

Chief Executive Officer of Sceniuz, the IT division of Mahapatra Universal Limited, Mr. Dhure has over 20 years of expertise in data analytics and software development. He drives profitability and manages operations, with deep experience in HR, Admin, IT, and Sales.

### **Vikas Kapai**

#### **CEO – Futura Hotels & Resorts**

Chief Executive Officer of Futura Hotels & Resorts, Mr. Kapai boasts a 30-year career in hospitality, including leadership roles at Hyatt, Leela, Hilton, Marriott, and Accor. A distinguished IHM-Pusa graduate, he excels in hotel operations, P&L management, Brand Management, and Sales.

### **Ankush Shah**

#### **Chief Operating Officer (COO)**

Mr. Shah is the COO with Mahapatra Group's subsidiary company, Sceniuz IT Services. Backed by 24 years of experience in execution across diverse verticals, he specializes in scaling, taking complex digital transformations and grounding them in operational reality across the entire team. While maximizing revenue channels and optimizing human capital, his approach is holistic and unwavering in its efficiency. Leveraging a Columbia Business School pedigree and a dual background in Marketing and Finance, he cuts through current market competitiveness to build resilient infrastructure. He has shaped the next generation of business leaders at SPJIMR and Mumbai University.

### **Ravi Kaushik**

#### **Director**

He has over 20 years of experience spanning media leadership, strategic growth consulting and business partnerships. He began his career in television media with Aaj Tak, Star News and CNBC TV18, where he developed deep expertise in financial storytelling, business journalism and market-focused content. He has also led marquee programming initiatives and large-scale national events bringing together corporate leaders, policymakers and investors. He has a strong advisory practice, working closely with startups, MSMEs, and enterprises across fintech, AI, defence, energy and consumer sectors, with experience across multiple organizations in strategic alliances, government interfacing, investor access and market expansion. His work is consistently focused on enhancing visibility, building high-impact partnerships, and delivering measurable growth outcomes.

### **Anshul Gupta**

#### **Chief Revenue Officer (CRO)**

Mr. Gupta, with over 27 years of experience across strategic advisory, management consulting and enterprise transformation, has a career spanning leadership role at Gartner, EY, Tech Mahindra and L&T. A seasoned strategic advisor to C-suite executives, he specializes in aligning technology, operating models and growth strategies to help global organizations scale efficiently in complex markets. He oversees all revenue-generating functions of the business and the strategy for revenue generation over the long term in order to maximize revenue opportunities created by digital products and services — particularly common in the software-as-a-service (SaaS) industry (mainly in our IT division).

### **Kirti Mishra**

#### **Director and Business Head – New Business**

Kirti is a business leader with over 25 years of experience across Telecom, Financial Services, Media, and Technology. His journey has been shaped by a strong academic foundation, an engineering degree from National Institute of Technology, Rourkela and a PGDM from Xavier Institute of Management Bhubaneswar, combined with decades of hands-on leadership in some of India's most dynamic industries.

Over the years, Kirti has taken on leadership roles at organizations such as Wipro Infotech, Max New York Life Insurance, Idea Cellular, Aircel, Dish TV, and CSM Technologies. In each of these roles, he has focused on building businesses that are not just bigger, but stronger – driving growth, improving operations, and helping teams perform at their best.

### **Pranali Bavkar**

#### **Human Resources – Group Head**

Ms. Bavkar, with her proficiency, ensures she is a bridge between management and employees, while fostering an environment that develops while aligning with business strategies and work policies of the group. She also manages recruitment, addresses grievances, creates training programs, conducts performance appraisal systems, and provides career development opportunities for the staff. She is also an expert in ensuring legal compliance with labour laws and regulations.

### **Sephali Sutar**

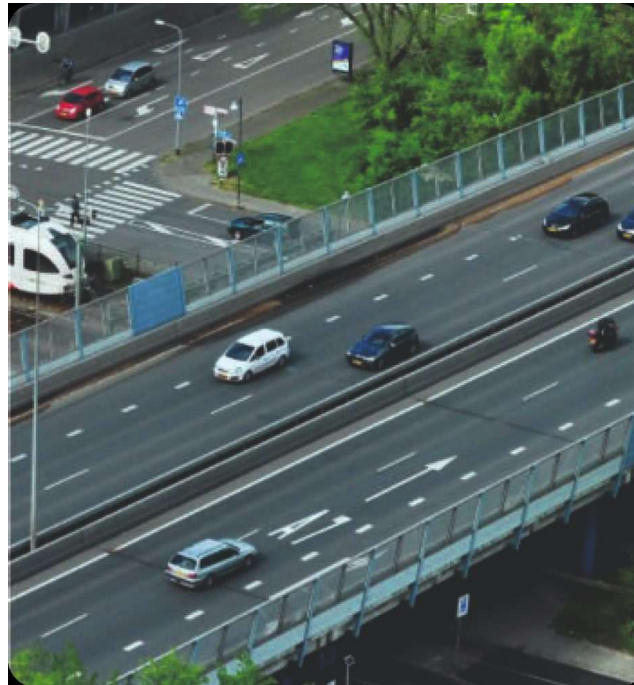

#### **Vice President – Corporate Affairs**

As the Vice President, Corporate Affairs of Mahapatra Universal Limited, Ms. Sutar is a strategic and excellent public relations representative with experience and insight in the realm of corporate affairs, brand management, public policy, government relations, stakeholder engagement, media communications, and crisis response across multiple markets. Across all our verticals/industries she aligns corporate strategy with public interest, shaping external narratives, and building trust with key audiences – from policymakers to the media and civil society.

# Our Businesses

## Road Infrastructure

*Highway Construction, Operation & Maintenance*

The road network plays a very vital role in the overall development of any country. With one of the largest road networks of 5.2 million km, Indian roads carry 65% of freight traffic and 80% of passenger traffic. Of the total road traffic, 40% is serviced by National Highways with a total length of more than 100,000 km, thereby attracting huge investments. Huge opportunities are available to the company in its core competence area of civil engineering projects, particularly in roads and highways. With huge investment expected in the infrastructure sector, its revival is considered key to the growth of India. The outlook on investment in National Highways looks good as investment is expected to increase at a CAGR of 30% over the next 5 years. Apart from constructing new roads, the Government is also focusing on the Operations & Maintenance (O&M) of existing roads. In financial year 2015-16, NHAI made budgetary provisions of Rs. 1,300 crore of grant towards maintenance and repair of National Highways, with an allocation of Rs. 2,200 crore as on January 2016 for maintenance of National Highways during 2015-16 for States / Union Territories. The company has an early-mover advantage in this segment.

## Urban Infrastructure

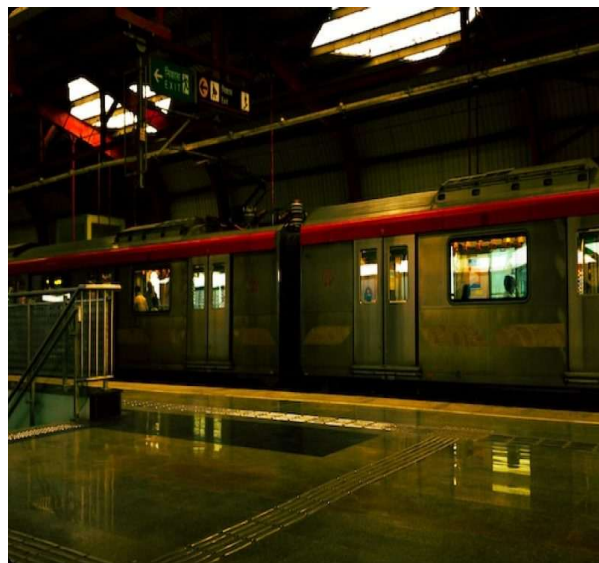

Around 10 million Indians migrate to cities each year. As per the World Economic Forum, India's urban population is expected to almost double to 814 million between 2014 and 2050. In FY15, the estimated housing shortage in urban areas was 18.78 mn houses. As per a World Economic Forum report, there is an estimated "US \$110 billion funding gap that could hinder India's ability to provide basic urban infrastructure and services to its rapidly growing urban population." The present urban infrastructure is inadequate to address urban population demands. This provides the company with a huge opportunity in the sector.

---

## Other Infrastructure

### Railways / Metro

Indian Railways has embarked upon an expansion program as per Vision Document 2020. Metro railways are being constructed in major cities all over the country. Over the next 10–12 years, the Railways are looking at investing US\$500 billion to increase capacity and upgrade existing infrastructure.

## Inland Waterways / Ports

Waterways freight transportation is under-utilized in India compared to the US, China and the European Union. India has recognized 106 waterways, of which six are declared national waterways. Globally, inland waterways have proved to be cost-effective and environment-friendly; for instance, the cost of moving coal via coastal shipping is one-sixth of the cost of moving it by railways. India possesses an extensive network of inland waterways in the form of rivers, canals, backwaters and creeks. Of the total navigable length of 14,500 km, 5,200 km of river and 4,000 km of canals can be used by mechanized vessels. India's inland waterways potential has been estimated at around 30 MMT of cargo.

Jal Marg Vikas (National Waterway-I) is a 1,620 km project on the River Ganges between Allahabad and Haldia, which will enable the commercial navigation of 2,000-tonne vessels. The project will be completed over six years following an investment of Rs. 4,200 crore. India has 12 major ports and 187 non-major ports; these 12 ports handle approximately 95% of the trading volume and 70% of the trade by value in India. The Government also plans to develop greenfield ports on the Eastern and Western coasts under the flagship Sagarmala project. Mahapatra Universal Limited intends to engage in civil engineering projects related to port construction, harbor/marine structures, water supply/sanitation, bridges, viaducts and elevated structures, having tied up with a company with proven expertise in undertaking major and complex maritime works.

## Housing Infrastructure

The Indian housing sector is one of the fastest growing across the world. Growing population, rising income levels and rapid urbanization have catalyzed sustained growth. This sector contributes 5–6% of India's GDP. The total housing shortage in 2015 was estimated to be 33.58 mn units, with urban housing shortage at 18.78 mn units and rural housing shortage at 14.8 mn units. Mahapatra Universal Limited is in the process of building low-cost houses for the needy and deserving Indians who dream of a home of their own. We plan to build 1 crore homes in the next 10 years across India.

---

## Industrial Infrastructure

Mahapatra Universal Limited is engaged in Industrial Infrastructure Development projects across the country. The main objectives of the Industrial Infrastructure division are as follows:

- To develop or assist in the development of Industrial Growth Centers/Areas in India in general, and in its areas of jurisdiction in particular, as per the requirements of the different State Governments and Central Government policies — obtaining/acquiring land from government or private sources and arranging essential infrastructural inputs such as roads, water, power and plantation.
- To promote, encourage and assist the establishment, growth and development of industries and industrialization in India, such as Textile Parks, SEZ and other industrial parks.
- To prepare, undertake and promote industrial schemes either solely or jointly with the Government or any Corporation, Company, Association, Institution or individuals.
- To encourage and take steps for procurement and establishment of public sector industrial projects.
- To encourage and take all steps to attract and invite entrepreneurs, industrialists, businessmen and promoters to establish industrial projects and enterprises in the areas where Mahapatra Universal Limited is involved.

## Speciality Chemicals

We manufacture sodium silicate in different forms as per the customer's requirement, and have pioneered the manufacture of sodium silicate for more than 45 years. The application of sodium silicate is very wide — due to its different molecular ratio and specific weight, liquid sodium silicate is used to manufacture laundry soap, detergent cake, sodium metasilicate, fire-resisting & acid-proof cement, steel & alloy castings, electrodes, dyeing, printing, textile auxiliaries & ceramics. It is also used to manufacture silica gel, toothpaste, precipitated silica, zeolite, construction chemicals, oil-field chemicals, paints, pigments, paper, foundry fluxes and fiber drum. Because of its binding properties, sodium silicate is an excellent water-proofing agent and is used in acid & alkali proof linings. Our products include Sodium Silicate, Alkaline Grade Silicate, Solid Glass Silicate, Liquid Silicate and Neutral Grade Silicate.

## Consumer & Retail

INDIANNESS — believing in oneself and doing things the Indian way — has been the core of our business since the inception of our consumer and retail division. Today a wide portfolio of brands in food, FMCG and fashion complements the country's pioneering modern retail networks. We hold the vision that our customers and stakeholders are best served by creating and executing future scenarios in the consumption space, leading to economic development. We aim to be trendsetters in evolving consumer brands and delivery formats, making consumption affordable for all customer segments. We shall infuse Indian brands with confidence and renewed ambition, and be efficient, cost-conscious and committed to quality in whatever we do. Our flagship retail brand Preeti's is ranked among the most valuable Indian retail startup brands and among the most trusted in mini modern retail stores. With a growing chain of small neighbourhood stores, we are on the path of opening one store every week, with a target to open 10,000 neighbourhood stores.

## LED Lighting

### Batten LED Tube Light

Elegant design with decorative polycarbonate end caps and uniform glare-free light using SMD LED technology.

Aluminium extruded heat sink for effective heat management. Wall mounted, protected from dust and insects.

### LED Streetlights

Latest state-of-the-art LED street lighting solutions. By replacing conventional lighting with LED, energy can be saved up to 40%. An LED Street light is an integrated light that uses light-emitting diodes (LED) as its light source.

### LED Moving Display Board

IP-based LED message scrolling display board as per your requirement. Bright LED display boards are visible from long distances of up to 100m or more. Our unique customization and integration services reduce delays to almost nil.

### LED Down Lights

An LED-based system such as a down light needs more than just efficient, high-quality LEDs. Optical, thermal, and power solutions geared towards optimal performance and longevity are key elements to the success of the application.

### LED Panel Lights

Widely used for various commercial and residential lighting applications, such as offices, shopping malls, hotels, restaurants, hospitals and home lighting.

### Astronomical Timer Switch

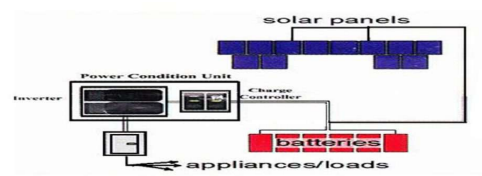

Time switches are used to control events with respect to a real-time clock (RTC), whereas timers control processing times. RTC forms the basic difference between a timer and a time-switch. We also offer GPS clocks for accurate time and LED characters.

## Solar Power Products

### Solar Modules

Established to generate non-conventional power in India. The USP is to ensure energy-efficient solutions and to develop solar energy projects that provide economical and efficient green energy.

### Solar On Grid & Off Grid Projects

Off-grid power system packages at all wattage & price levels. The systems are all "stand alone" systems, capable of producing electricity from solar energy and storing it for use when the sun is not shining.

### Solar Pump Sets

With rich international technological experience, a unique and cost-effective solar solution for agricultural pumps — the best solution during the daytime for free water dwelling / pumping systems.

### Solar Home Lighting Systems

Home lighting systems used when there is no availability of power. Useful for low-cost homes and shops to provide 24-hour power with LED bulbs, DC fans, mobile charging, etc.

### Solar Lanterns

A solar lamp, also known as a solar light or solar lantern, is a lighting system composed of an LED lamp, solar panels, battery and charge controller, operating on electricity from batteries charged via a solar photovoltaic panel.

### Solar Powered LED Streetlights

Latest state-of-the-art LED street lighting solutions. By replacing conventional lighting with LED, energy can be saved up to 40%.

### **Solar Powered Rural Water Drinking Systems**

A unique and cost-effective solar solution for rural drinking water supply schemes for public health engineering departments.

### **Solar Water Heater**

Solar water heating systems can heat water up to 80°C. SWHS of 100–500 liters capacity are suited for domestic application; larger systems (above 500 LPD) can be used in restaurants, etc.

### **All In One Solar LED Streetlights**

Very high efficiency solar energy component with a new type of lithium battery, intelligent solar controller and Panasonic infrared induction sensor; the compact solar lights easily adapt to a range of applications.

### **Mobile Solar Powered Water ATM**

A unique and cost-effective solar solution for mobile solar power water ATMs. Users are issued a card they can use to claim a daily share of water.

### **DC Fans – Table & Ceiling Fans**

A solar fan is a mechanical fan powered by solar panels. The solar panels are either mounted on the device or installed independently.

### **Solar Rooftops For Petrol Bunks**

A minimum 7-hour power cut, a monthly diesel bill of Rs. 25,000 and an electricity bill of Rs. 6,000 were brought down to a total of just Rs. 2,000 — a huge reduction in hefty electricity bills with quick and higher ROI.

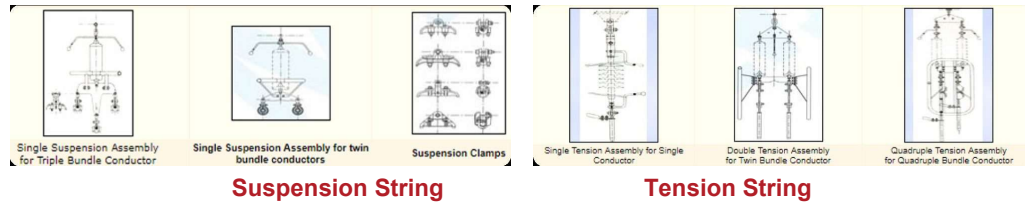

## **Our Other Products**

- Solar high mast light systems
- Solar structures
- Solar panel cleaning machines
- Solar cold storage systems / solar refrigerators
- Solar rural electric power distribution systems

## Electrical & Mechanical Fitments

### Insulator Hardware

The entire range of insulator hardware for suspension & tension strings, up to six-bundle conductor, for application on transmission lines of various ratings up to 800 KV.

### Conductor & Ground Wire Accessories

We offer the entire range of conductor accessories for single or bundle conductors. These include midspan compression joints, repair sleeves, parallel groove clamps, vibration dampers, spacer dampers for twin, triple, quad & hexa bundle conductors, and all types of spacers and armour rods. Accessories for various sizes of ground wire are also manufactured, including suspension assemblies, tension assemblies, midspan joints, repair sleeves and earthing rods.

### Sub-Station Hardware, Clamps & Connectors

We manufacture a whole range of hardware and accessories for application in various substations of different ratings. These include tension and suspension strings with and without turn buckle, IPS tubes, and clamps and connectors of different types such as parallel groove clamps & T-connectors.

## Our Practice Areas — Four Pillars of Enterprise Excellence

### **Data Engineering**

Models, policies, and standards for data collection, storage, and integration.

### **Data Analytics**

Data visualization, discovery, and science for the data-driven enterprise.

### **Cloud & Platform**

Azure, Databricks and Microsoft Fabric cloud-native analytics architectures.

### **Management Consulting**

Identify critical success factors in dynamic, rapidly changing markets.

## **Let's Build Something Extraordinary Together**

Partner with us to unlock the full potential of your data. Sceniuz delivers impactful Data Analytics & Consulting solutions across APAC, US & Europe.

## Mining and Logistics

Mahapatra Universal Limited is a specialized player in the iron ore mining industry, engaged in the exploration, extraction, beneficiation, processing, and marketing of high-quality iron ore. With a strong focus on operational efficiency, sustainability, and compliance with industry standards, the company supplies iron ore products to steel manufacturers, industrial consumers, and international trading partners.

Complementing its mining operations, Mahapatra Universal Limited offers comprehensive logistics and supply chain solutions designed to support the seamless movement of bulk commodities. Its logistics capabilities include mine-to-port transportation, freight management, material handling, stockyard operations, warehousing, inventory management, and multimodal transportation services. By integrating mining and logistics operations, the company ensures reliable delivery, cost optimization, and efficient resource management throughout the value chain.

Leveraging industry expertise, modern equipment, and strategic partnerships, Mahapatra Universal Limited is committed to delivering sustainable growth, operational excellence, and long-term value to its customers, stakeholders, and business partners. Its integrated approach enables it to effectively manage the entire lifecycle of iron ore production and distribution, from resource development and extraction to transportation and final deliver.

## Mining & Material Logistics: Execution Track Record

Demonstrated capability and operational excellence in large-scale coal haulage, ash transportation, and dedicated fleet management across major industrial corridors and national highways.
